If deemed advisable by the transportation director and approved by the School Board, some students may be required to walk distances beyond those specified, but within the maximum distances allowed by RSA 189:6 and 189:8. Pupils residing in areas which are inaccessible by a local school district's established mode of transportation may be required to walk a distance not to exceed one and one-half miles to a school vehicle stop. This exception is generally reserved to the "mud season" or other deficiencies in road construction/ownership. The route must be approved by the Commissioner of Education.

Alternative transportation may be arranged for children living in remote areas if deemed advisable by the transportation director and approved by the School Board.

The transportation director will establish regulations for school vehicle riders which will be distributed to students and parents at the beginning of each school year.

The transportation director will develop and supervise a student training program. At least twice during the school year, each pupil who is transported to school in a vehicle shall be instructed in safe riding practices and shall participate in emergency evacuation drills.

Transportation privileges may be suspended for failure to conform to district transportation regulations. A procedure for suspension will be developed by the transportation director and made part of transportation regulations.

The transportation director is authorized to hire, train, supervise, and dismiss school vehicle drivers.
