STUDENT PRODUCTIONS

Assemblies, public programs, and public performances by students have an important place in a well-rounded educational program. They must, however, be consistent with the educational goals of the school.

School sponsored student participation in public performances is encouraged when such performances contribute to the educational process and objectives of that particular class and when it does not interfere with other scheduled activities or classes within the school.

Student organizations or groups shall not accept remuneration for participating or performing when they represent the school.

Admission shall not be charged for student performances which emanate from regular classroom programs.

Voluntary donations in support of the culminating activity of school classroom music programs will be accepted in support of the unusual cost of royalties and technical support.
